WORK EXPERIENCE

Software Engineer

Dec 2025 – Present

Vigo Retail — Chennai, Tamil Nadu

Distribution-as-a-Service (DaaS) platform empowering 500+ MSMEs and FMCG brands across India and SE Asia

- Built **5 core eCommerce modules** — catalog, cart, orders, warehouse, promotions — using React.js, TypeScript, and Material UI
- Integrated **10+ REST APIs** for real-time inventory tracking, dynamic pricing, and checkout workflows
- Engineered **promotion engine** with stock validation and warehouse-based product availability logic
- Boosted **UI performance by 40%** via Redux, lazy loading, code splitting, and modular architecture
- Shipped features across **2 markets** (India, Vietnam) in Agile/Scrum sprints with bi-weekly releases

Software Engineer

Sep 2023 – Jul 2025

Sense7ai — Coimbatore, Tamil Nadu

AI product company building Generative AI copilots and automation platforms for pharma, HR tech, and recruitment

- Owned **React.js and React Hooks development** across 3 enterprise platforms — pharma GxP, ATS, and HR tech — serving 1000+ users
- Integrated **Generative AI (OpenAI API GPT-4, Mistral)** into production AI copilot features for compliance and recruitment workflows
- Boosted **frontend speed by 35%** — React Hooks optimization, code splitting, lazy loading, route-based chunking
- Delivered **Zita ATS end-to-end** — system design to production for 200+ enterprise recruiters
- Shipped **reusable TypeScript component library** used across 3 products, saving **30% dev time** and 40+ hours/month
- Built **FastAPI (Python) microservices** connecting LLM/AI workflows to user and study management — 5+ APIs exposed
- Developed **RAG pipeline** (LangChain + GPT-4) for pharma compliance Q&A — cut manual review effort by **40%**
- Automated **AI Automation workflows** for candidate pipelines, email triggers, and GxP audit data using Django and FastAPI

Frontend Developer Intern

Apr 2023 – Aug 2023

Sense7ai — Coimbatore, Tamil Nadu

- Built **responsive React.js UIs** using React Hooks and Context API across 2 MVP product launches
- Improved **web performance and SEO** compliance to WCAG and Core Web Vitals standards
